Mr. E. Perry Kupferman
Supervising Life Actuary
California Dept of Insurance
Suite 14514
300 South Spring Street South Tower
Los Angeles, CA

Dear Mr. Kupferman:

Attached is a resubmission of our previous Individual health premium rate filing CA-2010- 00028. This submission corrects a simple calculation error concerning the premium development in the lifetime loss ratio demonstration. The requested premium rate increase of 18.7% is unchanged from the original rate filing and meets the loss ratio requirements under California law.

Our requested rate increases are necessary considering the financial losses we have sustained on these policies. Over the period from Jan. 2006 through Dec. 2009, we incurred an operating loss of approximately $6 million before taxes and project additional losses of $7 million before taxes for 2010.

As evidenced above, current experience has continued to deteriorate. It is important to note that we have voluntarily delayed these increases from our original July effective date and capped increases for individual members. These considerations would justify a significantly higher increase, however we believe the attached rate filing will improve the sustainability of these policies.

Implementing our requested rates will help ensure the long term viability of our Individual products in California. The rates contained in this filing will also help members achieve more predictable health insurance premiums. Our objective is to implement these rates with a September effective date.

We stand ready to answer any questions that the Department or Axene Health Partners may have regarding this filing in order to allow timely implementation of these rates.

Sincerely,

Garth
