¹ Provide information for January 1-December 31 of the reporting year.

² Average percent increase means the weighted average of the annual rate increases that were implemented (actual or a reasonable approximation when actual information is not available). The average shall be weighted by the number of enrollees/covered lives.

³ "Adjusted" means normalized for aggregate changes in benefits, cost sharing, provider network, geographic rating area, and average age.

⁴ Most commonly sold large group benefit design is determined at the product level. The most common large group benefit design, determined by number of enrollees should not include cost sharing, including, but not limited to, deductibles, copays, and coinsurance.

⁵ The total number of enrollees/covered lives (employee plus dependents) affected by, or subject to, the rate change.

⁶ Average percent increase means the weighted average of the annual rate increases that were offered (final rate quoted, including any underwriting adjustment) (actual or a reasonable approximation when actual information is not available). The average shall be weighted by the number of enrollees/covered lives in columns 4 & 5.
