NOTICE OF INVESTIGATORY HEARING ON
THE USE OF GROUP RATING
IN PRIVATE PASSENGER AUTOMOBILE INSURANCE

Insurance Commissioner Ricardo Lara will convene an investigatory hearing pursuant to California Insurance Code section 12924 to gather evidence and ascertain the facts regarding insurers' use of occupational, educational, and other group rating practices, or so-called “affinity groups,” and how such use of these groups affects the rates for California private passenger automobile insurance.

Like his predecessors before him, Commissioner Lara continues to receive consumer complaints alleging that insurers in California improperly utilize drivers’ occupation, educational attainment, or other “affinity group” criteria to establish private passenger automobile insurance premiums. Insurance Code section 1861.12 permits insurers to issue insurance coverage on a group basis; however, the rates charged for any group insurance are also required to comply with other applicable California laws, including but not limited to, Insurance Code sections 1861.02 and 1861.03.

The Commissioner is concerned by the allegations that Californians with similar driving characteristics may not qualify for a particular insurer’s automobile group rate because of their occupation, educational attainment, or other “affinity group” criteria. For the first time in the Department’s history, the Commissioner will conduct an investigatory hearing on the subject of group automobile insurance premiums to gather concrete facts and gain a greater understanding regarding how group rates impact different classes of drivers. Specifically, the Commissioner intends to investigate whether insurers’ use of “group” insurance rates in California increases the cost of insurance for lower-wage, less-educated consumers, or for classes of consumers protected by the Unruh Civil Rights Act. Ultimately, the Commissioner is committed to protecting all California drivers from improper rating practices, and ensuring that everyone is treated fairly and equitably.

Prior to the investigatory hearing, the Commissioner will communicate with stakeholders and other interested persons, inviting them to provide information in response to the Commissioner’s specific questions in advance of the hearing. The Commissioner’s questions will focus on the manner in which rates and rating practices are used for group private passenger automobile insurance in California.

The Commissioner may issue subpoenas pursuant to California Insurance Code section 12924(a) for documents and live testimony in advance of the public hearing. Whether the Commissioner will issue subpoenas will depend upon the extent to which stakeholders are able to voluntarily provide him with comprehensive answers to his specific questions.
