Ms. Nerone highlighted the collaborative efforts among the Regional Office and the seven counties that make up the Golden Gate/Northbay Consortium. the employers money, she acknowledged that large cases take multiple years and
provide a high estimate of chargeable fraud during those years, and expressed that this
fund brings money back to the employers.

Chairperson Marshall commented that he would like to know the number of new case
filings and an estimate of the average time from charge to conviction.

Jennifer Snyder of Los Angeles responded that there are too many variables to make this
estimation and Chairperson Marshall agreed.
