Case No. 34-2010-00079432

**[PROPOSED] CALIFORNIA
INSURANCE COMMISSIONER'S
SECOND AMENDED COMPLAINT
IN INTERVENTION**

JURY TRIAL DEMANDED

Judge Raymond Cadei
Department 13

1 California Insurance Commissioner Dave Jones hereby intervenes and joins with
2 Plaintiff/Relator Rockville Recovery Associates Ltd. in this complaint.

3 **INTRODUCTION**

4 1. This action is based on Sutter Hospitals' routine practice of submitting
5 false, fraudulent and/or misleading bills to insurers for supposed "anesthesia services" provided
6 during medical procedures at their facilities, when such services were not provided, or were
7 separately billed by the anesthesiologist or were reimbursed through other code entries on the
8 hospitals' bills.

9 2. The State of California, in conjunction with *qui tam* Plaintiff Rockville
10 Recovery Associates Ltd., brings this action under the Insurance Frauds Prevention Act, Ins.
11 Code §§ 1871 *et seq.*, on behalf of the State of California, to recover damages, civil penalties, and
12 injunctive relief.

13 **INTERVENOR CALIFORNIA INSURANCE COMMISSIONER'S INTEREST IN THIS**
14 **ACTION**

15 3. The California Insurance Commissioner is the elected official chiefly
16 responsible for insurance regulation in California. Among his duties pertinent to this action are
17 regulation of health insurers and the investigation and prevention of insurance fraud. The
18 Commissioner directs the Department of Insurance Fraud Division, which employs peace officers
19 to investigate insurance fraud. Insurance fraud, including fraud of the type alleged in this
20 complaint, affects health insurance rates.

21 4. The Legislature charged the Commissioner with various duties in
22 overseeing litigation pursuant to Insurance Code section 1871.7. The Insurance Code's *qui tam*
23 provisions anticipate that the Commissioner will have significant oversight and continuing
24 involvement in *qui tam* cases, even after unsealing. Insurance Code section 1871.7(e)(2) requires
25 that relators serve their sealed complaints and an explanation of their case on the Commissioner.

26 5. The Commissioner, as the elected public official with the primary
27 responsibility for insurance fraud prevention, has an interest in seeing that the provisions of the
28 Insurance Frauds Prevention Act are fully used to remedy the harms caused by defendants'

1 12. From approximately 2002 to 2008, The Guardian Life Insurance Company
2 of America hired the Relator to perform an audit of bills submitted to it. To that end, the
3 Guardian provided Relator with direct access to claims submitted and all necessary backup, as
4 well as large database compilations of said bills. The bills Relator reviewed included those from
5 numerous Sutter hospitals in California, including for example, California Pacific Medical
6 Center. As Relator's investigation progressed, it was asked to focus on bills from Defendant
7 Sutter Health, Inc. and its affiliated hospitals.

8 13. Through this investigation, and through its review of health care provider
9 bills in unrelated investigations for other payors, Relator discovered the practice by many
10 hospitals, including Sutter hospitals, of fraudulent billing of anesthesia services through the
11 misuse of billing codes, as described in detail below. Faced with bills from Sutter hospitals with
12 seemingly excessive anesthesia-related charges, Relator conducted an on-site audit at one of these
13 hospitals, California Pacific Medical Center, in 2007. By comparing the hospital's and
14 anesthesiologists' bills with other relevant patient records available at the hospital, Relator
15 learned that Sutter hospitals were misusing a certain code to bill for services not provided or
16 already compensated, as detailed below. During the on-site audit, representatives of the hospital
17 were unable to justify or explain these charges or the basis for billing this particular revenue code
18 on a time basis. Relator read and analyzed firsthand numerous bills by Sutter hospitals in
19 California in which anesthesia services were billed in this manner. Relator's investigation also
20 indicates that Sutter hospitals bill for anesthesia services to all payors in the same manner
21 described below.

22 14. Defendant MultiPlan, Inc. ("MultiPlan") is a New York corporation
23 headquartered in New York. MultiPlan does business in, among other places, California.

24 15. Defendant Private Healthcare Systems, Inc. ("PHCS") is a Delaware
25 corporation headquartered in New York. In October 2006, PHCS was acquired by Defendant
26 MultiPlan, and is now a subsidiary of MultiPlan.

27 16. Defendant Sutter Health is a California corporation headquartered in
28 Sacramento County, California and owns, controls, and/or operates affiliated hospitals throughout

1 California, including but not limited to each of the facilities identified in the following
2 paragraphs.

3 17. Defendant Sutter Health Sacramento Sierra Region is a California
4 corporation in the business of providing medical services, with its principal place of business in
5 Sacramento, California. Its sole member is Sutter Health. Defendant Sutter Health Sacramento
6 Sierra Region operates various healthcare facilities that have engaged in misconduct described
7 herein, including but not limited to the following:

- 8 a. Sutter Amador Hospital, located in Jackson, California.
- 9 b. Sutter Auburn Faith Hospital, located in Auburn, California.
- 10 c. Sutter Davis Hospital, located in Davis, California.
- 11 d. Sutter Medical Center of Sacramento, located in Sacramento,

12 California, including but not limited to the following:

- 13 1. Sutter General Hospital.
- 14 2. Sutter Memorial Hospital.
- 15 e. Sutter Roseville Medical Center, located in Roseville, California.
- 16 f. Sutter Solano Medical Center, located in Vallejo, California.

17 18. Defendant Eden Medical Center is a California corporation in the business
18 of providing medical services, with its principal place of business in Alameda County, California.
19 Its sole member is Sutter Health. Defendant Eden Medical Center operates various healthcare
20 facilities that have engaged in misconduct described herein, including but not limited to the
21 following:

- 22 a. Eden Medical Center, located in Castro Valley, California.
- 23 b. San Leandro Hospital Campus, in San Leandro, California.

24 19. Defendant Sutter East Bay Hospitals is a California corporation in the
25 business of providing medical services, with its principal place of business in Alameda County.
26 Its sole member is Sutter Health. Defendant Sutter East Bay Hospitals operates various
27 healthcare facilities that have engaged in the misconduct described herein, including but not
28 limited to the following:

- 1 a. Alta Bates Summit Medical Center, located in Berkeley, California.
- 2 b. Alta Bates Summit Medical Center, Herrick Campus, located in
- 3 Berkeley, California.
- 4 c. Alta Bates Medical Center, Summit Campus, located in Oakland,
- 5 California.
- 6 d. Sutter Delta Medical Center, located in Antioch, California.

7 20. Defendant Marin General Hospital is a California corporation in the
8 business of providing medical services, with its principal place of business in Marin County. Its
9 sole member was Sutter Health up until July 1, 2010. After that date, Marin General Hospital
10 was no longer part of the Sutter system.

11 21. Defendant Sutter Coast Hospital is a California corporation in the business
12 of providing medical services, with its principal place of business in Crescent City, Del Norte
13 County. Its sole member is Sutter Health.

14 22. Defendant Sutter West Bay Hospitals is a California corporation in the
15 business of providing medical services, with its principal place of business in San Francisco
16 County. Its sole member is Sutter Health. Sutter West Bay Hospitals operates various healthcare
17 facilities that have engaged in misconduct described herein, including but not limited to the
18 following:

- 19 a. California Pacific Medical Center, California Campus, located in
- 20 San Francisco, California.
- 21 b. California Pacific Medical Center, Davies Campus, located in San
- 22 Francisco, California.
- 23 c. California Pacific Medical Center, Pacific Campus, located in San
- 24 Francisco, California.
- 25 d. California Pacific Medical Center, St. Luke's Campus, located in
- 26 San Francisco, California.
- 27 e. Novato Community Hospital, located in Novato, California.
- 28

1 f. Sutter Lakeside Hospital and Center for Health, located in
2 Lakeport, California.

3 g. Sutter Medical Center of Santa Rosa, located in Santa Rosa,
4 California, including but not limited to the following:

5 1. Sutter Medical Center of Santa Rosa;

6 2. Sutter Medical Center of Santa Rosa, Warrack Campus.

7 23. Defendant Sutter Central Valley Hospitals is a California corporation in the
8 business of providing medical services, with its principal place of business in Stanislaus County.
9 Its sole member is Sutter Health. Defendant Sutter Central Valley Hospitals operates various
10 healthcare facilities that have engaged in misconduct described herein, including but not limited
11 to the following:

12 a. Memorial Medical Center, located in Modesto, California.

13 b. Memorial Hospital Los Banos, located in Los Banos.

14 c. Sutter Tracy Community Hospital, located in Tracy, California.

15 24. Defendant Palo Alto Medical Foundation, is a California corporation, in
16 the business of providing medical services, with its principal place of business in Mountain View,
17 California. It is affiliated with Sutter Health. Defendant Palo Alto Medical Foundation operates
18 various healthcare facilities that have engaged in misconduct described herein, including but not
19 limited to the following:

20 a. Menlo Park Surgical Hospital, located in Menlo Park, California.

21 b. Sutter Maternity & Surgery Center of Santa Cruz, California.

22 c. Surgical Offices, including but not limited to the following:

23 1. Fremont Center, in Fremont, California.

24 2. Palo Alto Center, in Palo Alto, California.

25 3. Mountain View Center, in Mountain View, California.

26 4. Redwood City Center, in Redwood City, California.

27 5. Chanticleer Office (2900), located in Santa Cruz, California.

28 6. Chanticleer Office (2911), located in Santa Cruz, California.

1 36. The Legislature also highlighted the negative impact of health insurance
2 fraud in particular, advising that it is believed that fraudulent activities account for billions of
3 dollars annually in added health care costs nationally. Health care fraud causes losses in premium
4 dollars and increases health care costs unnecessarily.” (Ins. Code § 1871(h).)

5 37. To combat this fraud, the Act permits civil enforcement of relevant
6 provisions of the Penal Code, either by the State or by any “interested person” on behalf of the
7 State, *i.e.*, a relator in a *qui tam* action. Specifically, section 1871.7 provides that any person who
8 violates a provision of Penal Code sections 549, 550, or 551, is liable for civil penalties between
9 \$5,000 and \$10,000, plus an assessment of not more than three times the amount of each claim
10 for compensation, as defined in Section 3207 of the Labor Code or pursuant to the contract of
11 insurance.

12 38. The Act allows any person having knowledge of illegal conduct as
13 specified in Insurance Code Section 1871.7 to bring an action and to share in any recovery.
14 Pursuant to section 1871.7(e)(2), the complaint is to be filed under seal for 60 days (without
15 service on the Defendants) to enable the State or county government to: (1) conduct its own
16 investigation without the knowledge of the Defendants; and (2) determine whether to join the suit.
17 The Relator must also file with the applicable County District Attorney, and the Insurance
18 Commissioner, the complaint and a detailed statement disclosing all material evidence and
19 information in the Relator’s possession.

20 39. Relator has complied with the requirements of Insurance Code
21 section 1871.7(e)(2).

22 40. The facts in support of this action were developed through Relator’s direct
23 and personal knowledge, derived through a review of actual bills submitted by Sutter hospitals.
24 Relator is the original source for all of the information contained in this complaint. This lawsuit
25 is not based on any public disclosure of the allegations or transactions which form the basis of
26 this lawsuit.

27 41. The State seeks to recover damages and civil penalties arising from
28 Defendants’ violation of Insurance Code section 1871.7. Specifically, Defendants conspired to

1 prepare, and did prepare false, fraudulent, and misleading records and bills, and submitted or
2 caused to be submitted said records and bills in support of false, fraudulent, or misleading
3 insurance claims to insurance companies and/or third party administrators such HMOs and PPOs
4 for their review and submission to insurance companies. The fraudulent records and bills were
5 created to pursue fraudulent insurance claims, thereby violating the IFPA.

6 Overview of Billing for Anesthesia Services

7 42. Anesthesia involves the use of medicines to block pain sensations during
8 surgery and other medical procedures. Often, this is achieved through local or regional
9 anesthesia, administered via neural blockade. General anesthesia is a drug-induced loss of
10 consciousness during which patients cannot be aroused, even by painful stimulation. Conscious
11 sedation, another type of anesthesia, is a drug-induced depression of consciousness during which
12 patients respond purposefully to verbal commands and/or tactile stimulation.

13 43. In a typical hospital, approximately 50% of procedures that take place in an
14 operating room require either no anesthesia or only local or regional anesthesia.

15 44. Most hospitals, including Defendants, do not directly employ
16 anesthesiologists. Instead, anesthesiologists are employed by medical corporations or physician
17 groups which have agreements with hospitals to use their facilities to perform medical
18 procedures. These physician groups bill payors using the standardized CMS 1500 claim form,
19 independently of any bills submitted by the hospital. This physician billing is done pursuant to
20 the Current Procedural Terminology ("CPT") coding system. Anesthesiologist and hospital bills
21 are generated and submitted to payors independently of one another.

22 45. Hospital claims are reported on UB claim forms using "revenue codes."
23 The claims follow guidelines developed by the National Uniform Billing Committee (NUBC),
24 which periodically issues the NUBC Official UB-04 Data Specifications Manual. This manual
25 lists the "revenue codes" hospitals use to bill for their services and use of their facilities. The
26 manual is comprehensive, and covers every conceivable cost item a hospital may incur for any
27 given procedure. Revenue codes are four digits long, and the first three reflect a general category.
28 For example, code 025x refers generally to "pharmacy." Within that code are specific entries.

1 such as 0250 for “general classification,” or 0258 for “IV solutions.” The codes are often
2 referenced without the leading zero.

3 46. Each hospital, including those operated by Defendants, maintains a
4 chargemaster, which is a complete schedule of its charges. A hospital’s chargemaster rates apply
5 equally to all patients that access the hospital through private health insurance plans, though some
6 payors may have contracted with the hospital for discounts on the total bills submitted. Each
7 charge code on the hospital’s chargemaster is assigned one of the NUBC revenue codes described
8 above. The individual charge codes billed to a patient do not appear on the UB-04 claim as
9 individual line items; rather, they are aggregated into the revenue codes described above. Each
10 revenue code appears on the claim form as an individual line item. For example, if a patient
11 incurred charges that are assigned to revenue codes 258, 360, and 370, the UB-04 claim form
12 would include a line for each of those revenue codes and the aggregate amount billed under that
13 revenue code, but the underlying charges for each of the revenue codes would not be listed
14 anywhere. As a result, a payor does not receive a claim from Sutter that sets forth precisely what
15 services or items were provided for under code 37x, or whether the charges were chronometric.
16 All that is listed is the 37x revenue code and a charge for “Anesthesia” or “Anesthesia Services”.

17 47. Sutter facilities maintain electronic chargemaster files that include, for each
18 entry, the charge code, charge description, billing description, department, other medical codes,
19 and, critically, the revenue code to which the entry is assigned. Sutter facilities’ publicly-
20 disclosed chargemasters are far more limited. Notably, they exclude the revenue code column,
21 which would permit a patient or payor to identify which charges are assigned to the revenue
22 codes that appear on a patient’s claim form.

23 48. Hospital charges for anesthesia are captured in a number of NUBC revenue
24 codes. Code 25x, the pharmacy code, captures the charges for anesthesia agents. Code 36x
25 includes charges for the operating room suite or theater, including equipment, monitors, supplies,
26 and staffing. Because code 36x covers the costs of operating room staffing, it is properly billed
27 on a chronometric basis—that is, it is billed per unit of time. Typically, a patient is billed for the
28 first half hour of operating use (or fraction thereof), and on fifteen minute increments thereafter.

1 49. The NUBC also allows use of code 96x for the professional services of an
2 anesthesiologist or a trained anesthesiology nurse employed directly by the hospital. As noted
3 above, however, Defendants do not employ anesthesiologists and therefore do not charge to this
4 code. In general, the use of 96x code is vanishingly rare in the industry.

5 50. Finally, the 37x code for “Anesthesia” is properly used to fill a minor gap
6 in hospital charges related to anesthesia that is not captured in other codes, including but not
7 limited to the codes identified in the preceding paragraphs. The 37x code may be used to charge
8 for the services of a technical assistant (*i.e.*, a non-skilled hospital employee who is neither a
9 nurse nor a physician) to prepare an operating room or other setting for the anesthesiologist;
10 certain anesthesia inhalation gasses not covered under the drug/pharmacy codes, including code
11 25x; and anesthesia-specific disposable items. Because code 37x only captures these ancillary,
12 one-time charges, it should not be billed on a chronometric basis.

13 51. On those occasions when 37x charges are appropriate, the total costs which
14 may be properly recovered through the 37x code should be less than a few hundred dollars.

15 **Defendants’ Misuse of the 37x Anesthesia Code**

16 52. As noted above, numerous procedures that take place in Defendants’
17 facilities require no anesthesia or only conscious sedation administered by the attending physician
18 or surgeon. Still other procedures require only local or regional anesthesia *via* injection. In such
19 cases, there is no legitimate basis for any 37x charges. Nevertheless, based on Relator’s analysis
20 of bills submitted to payors by Sutter hospitals, Defendants appear to charge 37x even for these
21 cases. Similarly, a review of Sutter hospitals’ bills and related patient records revealed that the
22 37x code was charged to patients in radiology suites when there was no indication of anesthesia
23 being provided. These 37x charges are for services not actually rendered, and are therefore
24 fraudulent, false, and misleading under the IFPA.

25 53. For those procedures where the 37x code may be legitimately billed,
26 Sutter’s practices and resulting charges also violate the IFPA. As described above, after
27 application of revenue codes 25x and 36x, the only remaining anesthesia-related costs incurred by
28 Defendants are for certain anesthesia agents not captured in the pharmacy codes, some disposable

1 supplies, and the cost of room or tray setup by an unskilled technician. These ancillary costs are
2 captured in the 37x code, and should total less than a few hundred dollars.

3 54. However, based on Relator's research and review of bills submitted by
4 Sutter facilities, every time one of their operating rooms is used, Defendants impose a 37x charge,
5 on a time basis, for the entire period the patient is in the operating room. In 2005, for example,
6 California Pacific Medical Center's chargemaster rate for "STND GEN ANES" was \$1,610.55
7 for the first half hour (or part thereof) and \$457.50 for each subsequent quarter hour (or part
8 thereof). Comparable rates apply at all Sutter hospitals, and the rates have increased over time.
9 This charge, and other chronometric anesthesia and conscious sedation charges at Sutter facilities,
10 are reported on a UB-04 form under the 37x revenue codes. As a consequence, Sutter hospitals
11 routinely charge, on average, \$3,000 to \$5,000 under the 37x code, when they are entitled to no
12 more than a small fraction of that, if anything.

13 55. These 37x charges so far exceed actual costs that it is clear Defendants are
14 actually double billing for costs captured in the anesthesiologist's bill or in other revenue codes,
15 or are simply billing for services not actually provided, in violation of the IFPA. Indeed, based
16 on Relator's familiarity with anesthesia billing (its principal is a practicing clinical
17 anesthesiologist), and on Relator's review of bills submitted by Sutter hospitals and
18 anesthesiologists to payors, the resulting 37x charges are significantly larger than bills submitted
19 by anesthesiologists for the same procedure. Further, based on the Relator's review of Sutter
20 hospitals' cost reporting to the Federal government under the Medicare program, charges claimed
21 under the 37x code dwarf the actual costs of providing anesthesia as reported to the government.

22 56. Sutter's use of chronometric billing under the 37x code constitutes an
23 independent false, fraudulent, and/or misleading practice. Chronometric billing under 37x
24 implies the patient is being billed for the time-based services of an anesthesiologist or other
25 professional, when in fact the anesthesiologists bill separately, and any time-based services that
26 could result in significant charges by the hospital are captured in other revenue codes, including
27 the 36x operating room code.

1 HMOs, which review the bills and seek payment by their subscribing insurance companies. PPOs
2 and HMOs also generally provide utilization review, wherein its representatives review records of
3 treatment to verify the treatment and billing is appropriate for the condition treated. PPOs and
4 HMOs also often handle disputes between insurers and providers.

5 61. On its website, Defendant MultiPlan describes itself as the nation's oldest
6 and largest supplier of independent, network-based cost management solutions with more than
7 half a million healthcare providers under contract, and 65 million claims processed through its
8 networks each year. MultiPlan also offers fee negotiation services to its healthcare provider
9 clients through a single electronic claim submission.

10 62. Defendant Private Healthcare Systems, Inc., or PHCS, was acquired by
11 MultiPlan in October 2006, and is a subsidiary of MultiPlan.

12 63. MultiPlan's and PHCS's business model set the stage for the statutory
13 violations that are alleged in this complaint. These companies have a substantial market share in
14 California and serve as middlemen between hospitals and insurers. Specifically, insurers contract
15 with PHCS and MultiPlan to gain access to their network of Preferred Provider Organizations
16 (PPOs) at a discounted price from the providers' (e.g., hospitals) "regular billing rates." The
17 hospitals, through their own contracts with MultiPlan or PHCS, gain access to the subscribers of
18 insurance companies that have contracted with MultiPlan or PHCS.

19 64. Upon information and belief, the terms of the Systemwide Agreements
20 between PHCS/MultiPlan and the Sutter Defendants are binding on the health insurers, which
21 access Sutter hospitals through operation of these Systemwide Agreements.

22 65. The Systemwide Agreements contain provisions which prevent healthcare
23 insurers, referred to as "payers" in the Agreements, from challenging the reasonableness of the
24 Sutter hospitals' bills. This is accomplished through "hospital audit policies." These policies
25 expressly provide that questions and opinions regarding "medical necessity," "reasonableness of
26 charges," and "the propriety of a provider's usual and customary practices," are beyond the scope
27 of an audit and shall not be a part of any audit permitted under the agreements. Similarly, the
28 Systemwide Agreements impose strict audit time limits and prohibitions on line-item review of

1 bills. Such provisions are a common feature of agreements entered into between the Sutter
2 Defendants and PPOs and HMOs, including those Defendants sued herein as Does 401-500.

3 66. These terms effectively preclude insurer challenges to the reasonableness
4 of charges by the Sutter Hospitals. As such, PHCS and MultiPlan are properly described as
5 aiding or abetting the Sutter Hospitals' fraud, in violation of Penal Code sections 550(b)(1) and
6 (2), and Insurance Code section 1871.7.

7 67. Moreover, this arrangement enables the Sutter Defendants to impose
8 exorbitant 37x charges under cover of the agreed discount payors negotiate with
9 MultiPlan/PHCS. In fact, because overall bills are vastly inflated due to the Sutter hospitals'
10 double-billing, or billing for services not rendered, the negotiated discounts are rendered illusory.

11 **Fraudulent, False and Misleading Billing**

12 68. Thus, using a sophisticated knowledge of the applicable billing and
13 reporting provisions to insurers, and under cover of contracts that limit payors' ability to
14 challenge the charges, the Sutter Defendants authored, created and/or approved false, fraudulent,
15 and misleading medical reports, records, and bills to the insurance companies for payment. Sutter
16 Defendants submitted the false and misleading writings to various insurers in support of
17 fraudulent, false, or misleading 37x charges.

18 69. Plaintiffs make the following specific fraud allegations against the Sutter
19 Defendants:

20 a. **Who:** The Sutter Defendants, and their employees, officers, and
21 agents, submitted claims for payment to various insurers that contained false, fraudulent, and
22 misleading charges. Without discovery, Plaintiffs are unaware of, and therefore unable to
23 identify, the true names and identities of those individuals at the Sutter Defendants responsible for
24 actual claim submissions or formulating the policy of submitting these illegal charges. The
25 inflated bills are submitted to the numerous insurers, HMOs, PPOs and other health plans,
26 including, without limitation, Aetna, American Insurance Consultants, Anthem Blue Cross of
27 California, Blue Shield of California, California Foundation for Medical Care, Cigna, Coventry
28 First Health, Great West Healthcare, Healthnet, Healthcare Fund of Superior California, IPM

1 Health & Welfare Trust, Integrated Healthcare Administration, Interplan Health Group, Managed
2 Care Incorporated, National Medical Audit, PHCS, Paracelus Healthcare Corporation, Physicians
3 Mutual Insurance Company, Solano Partnership Healthplan, Tricare, Union Pacific Railroad
4 Company PPO, United Healthcare, Viant and Wilson & Paschall, Inc.

5 b. **What:** The Sutter Defendants knew, or were reckless in not
6 knowing, that the charges they submitted under 37x were already captured in other revenue
7 codes, including, for example, codes 25x and 36x, and in anesthesiologists' separate bills to
8 payors.

9 c. **When:** The Sutter Defendants have engaged in this practice of
10 submitting 37x charges for services not rendered, or services already compensated, since
11 approximately 2001, and on an ongoing basis continuing to this day. In that time, the Sutter
12 Defendants have submitted hundreds of thousands of claims, each of which contains false,
13 fraudulent, or misleading 37x charges as described herein.

14 d. **Where:** Hospitals affiliated with the Sutter Defendants prepared
15 bills containing false 37x charges in the California counties in which the Sutter hospitals are
16 located and submitted these charges in bills to health insurance companies, or to PPOs, HMOs,
17 and similar third party administrators, which in turn sought payment from health insurance
18 companies.

19 e. **How:** The Sutter Defendants impose the fraudulent 37x charges by
20 billing for "Anesthesia Services" or "Anesthesia" on a time-basis for the entirety of a patient's
21 underlying procedure. This practice misleadingly implies the 37x charge captures the services of
22 trained professionals or nurses, even though all such charges are already captured in other
23 revenue codes, such as 25x and 36x, and in anesthesiologists' separate bills to payors.

24 f. **Why:** The Sutter Defendants engage in this practice in order to
25 increase revenues per patient and thereby increase their profits.

26 70. Plaintiffs make the following specific fraud allegations against Defendants
27 MultiPlan and PHCS:
28

1 a. **Who:** MultiPlan and PHCS, and their employees, officers, and
2 agents, entered into and oversaw contracts which limited payors' audit rights against the Sutter
3 Defendants' fraudulent charges, and otherwise discouraged meaningful review of such charges.
4 Without discovery, Plaintiffs are unaware of, and therefore unable to identify, the true names and
5 identities of those individuals at MultiPlan and PHCS responsible for this conduct.

6 b. **What:** MultiPlan and PHCS knew, or were reckless in not
7 knowing, that the Sutter Defendants' 37x charges were fraudulent, false or misleading, that their
8 contracts with the Sutter Defendants precluded meaningful review of these improper charges, and
9 that bills inflated due to the fraudulent 37x charges rendered illusory any discounts payors' were
10 entitled to under their contracts with MultiPlan and PHCS.

11 c. **When:** MultiPlan and PHCS engaged in this practice of aiding and
12 abetting the Sutter Defendants' 37x charges for services not rendered, or services already
13 compensated, since approximately 2001, and on an ongoing basis continuing to this day. In that
14 time, the Sutter Defendants have submitted hundreds of thousands of claims pursuant to contracts
15 with MultiPlan and PHCS, each of which contains fraudulent 37x charges as described herein.

16 d. **Where:** MultiPlan and PHCS engaged in this conduct at their
17 respective principal places of business and other places of business throughout California and the
18 United States.

19 e. **How:** MultiPlan and PHCS carried out this misconduct, and aided
20 and abetted the Sutter Defendants' misconduct, through their acceptance of bills by hospitals
21 operated by the Sutter Defendants despite knowledge or reckless disregard of false 37x charges;
22 oversight of contracts which limited payors' audit rights against the Sutter Defendants' fraudulent
23 charges, including during audit review procedures; refusal to challenge the false 37x billings
24 submitted by the Sutter hospitals; and practice of otherwise discouraging meaningful review of
25 such charges.

26 f. **Why:** MultiPlan and PHCS engage in this practice in order to gain
27 access to Sutter Defendants' facilities, which in turn draws insurers to do business with them and
28

1 (5) Knowingly submit a claim for a health care benefit that was not
2 used by, or on behalf of, the claimant.

3 75. Penal Code section 550(b) makes it illegal to “knowingly assist or conspire
4 with any person” to do any of the following:

5 (1) Present or cause to be presented any written or oral statement as
6 part of, or in support of or opposition to, a claim for payment or other benefit pursuant to an
7 insurance policy, knowing that the statement contains any false or misleading information
8 concerning any material fact.

9 (2) Prepare or make any written or oral statement that is intended to be
10 presented to any insurer or any insurance claimant in connection with, or in support of or
11 opposition to, any claim or payment or other benefit pursuant to an insurance policy, knowing
12 that the statement contains any false or misleading information concerning any material fact.

13 76. Insurance Code section 1871.7(b) provides that every person who violates
14 Penal Code section 550 is subject to civil penalties of between \$5,000 and \$10,000, plus an
15 assessment of not more than three times the amount of each claim for compensation.

16 77. By virtue of the acts described above, the Sutter Defendants violated the
17 IFPA.

18 78. The Sutter Defendants submitted false, fraudulent or misleading bills to
19 payors by automatically charging all operating room patients for 37x anesthesia services on a
20 time-basis, even where the procedure did not require general anesthesia.

21 79. The Sutter Defendants submitted false, fraudulent, or misleading bills to
22 payors by charging for anesthesia services under 37x that are already captured in other revenue
23 codes or in anesthesiologists’ separate bills.

24 80. The Sutter Defendants submitted false, fraudulent, or misleading bills to
25 payors through use of time-based or chronometric billing of 37x charges. Time-based 37x
26 charges imply the patient is being billed for time-based professional or operating room procedures
27 or services, when in fact all such services are captured in other codes or in the anesthesiologists’
28 separate bill.

1
2 d. An award to Relator of the maximum amount allowed pursuant to
3 Insurance Code section 1871.7;

4 e. Attorneys' fees, expenses and costs of suit herein incurred, pursuant
5 to Insurance Code section 1871.7;

6 f. An injunction against each of the defendants for any continuing
7 conduct violating Insurance Code section 1871.7;

8 g. An order directing Defendants to cease and desist from violating
9 California Insurance Code section 1871.7;

10 h. An order and findings declaring that the contractual provisions used
11 by Defendants to prevent challenges to fraudulent billings are against the public policy of the
12 State of California and therefore unenforceable.

13 i. Such other and further relief as the Court deems just and proper.

14 Respectfully submitted,
