I. BACKGROUND

In 2011, the State of California established the Insurance Diversity Initiative. The Initiative focuses on transparency and administers surveys to understand the state of supplier diversity and governing board diversity amongst the state’s top insurers, those with written premiums of $100 million or more in California. Between 2012 and 2016, insurers increased their procurement with California diverse businesses by $770 million.

In 2016, the Multistate Insurance Diversity Survey (MIDS) Initiative was established to understand the state of supplier and governing board diversity amongst the nation’s now $1.84 trillion insurance industry. Through transparency, these efforts aim to encourage economic opportunities and increased procurement from the nation’s diverse suppliers.

The MIDS Portal is the online platform through which your company will access, complete, and submit the survey; all reports will be accessible publicly once the administration period has ended. All insurers that meet the threshold to report are requested to complete and submit MIDS.

Threshold:
- All insurance companies with written national premiums of $300 million or more and licensed in one of the four partner states; and/or
- All insurance companies with written California premiums of $100 million or more; and/or
- All insurance companies requested by one or more of the partner states in which the company is licensed has chosen to survey the company.

The survey questions are focused on supplier diversity. The survey seeks information about each company’s supplier diversity program, outreach efforts, and procurement data with diverse suppliers, and is intended to facilitate supplier relationships between insurers and the nation’s diverse businesses. Diverse businesses include: Minority Business Enterprises (MBEs), Women Business Enterprises (WBEs), Veteran (VBEs) and Disabled Veteran Business Enterprises (DVBEs), and LGBT Business Enterprises (LGBTBEs).

As the MIDS lead state, California will be hosting three 2-part series webinars to provide in-depth instructions on how to complete the survey; the full training requires attending both sessions. These technical conference calls will take place on Wednesdays at 8:30 AM (PST); each month.

More information about each webinar will be sent one week prior to each meeting:
- Part 1 Webinars: May 17, June 14, or July 12
- Part 2 Webinars: May 31, June 28, or July 26

Detailed information such as submission deadlines, portal access information, and instructions for completing the survey are all included below for your convenience and will also be accessible via the MIDS portal. Read and review all instructions herein very carefully to ensure you’re completing the survey correctly.

- When entering user information for your account, choose personal information that is easy to remember and note it down for future reference.

- Passwords require a minimum of 6 characters and **must** meet 2 of the following 3 requirements:

**VIII. CHARTS: Insurer Supplier Diversity**

The charts are a data collection tool built to measure procurement amounts with diverse suppliers nationally and also within each of the partner states. Detailed instructions and examples for each table on these charts are included below. Read these instructions carefully and deliberately to avoid making errors in your entries.

**REPORTING BY CHART**

- **Procurement information for your company / group will be reported from calendar year 2016.**

- In sum, there are 5 identical charts; each to report procurement information for each of the following:
  - CHART 1: National – this chart is inclusive of spend within the United States of America
  - CHART 2: California
  - CHART 4: Oregon
  - CHART 5: Washington

  **Remember:** each chart entails reporting for a different state, with the exception of the national chart which entails reporting for procurement in the United States (all 50 states; including the partner states). Carefully review all records before entering data to confirm it is for the correct calendar year and state.

- **Procurement Spend Scenarios:**

  1) If your company / group has both Diverse Spend and Total Procurement to report within a designated location, check the box stating "Diverse spend percentage available in (LOCATION)" found on all five of the charts for MIDS

  2) If your company / group only has Diverse Spend (no total procurement available) to report in a designated location, check the box stating "Diverse spend ONLY in (LOCATION)" found on all five of the charts for MIDS

  3) If your company / group only has Total Procurement (do not track diverse spend) to report in a designated location, check the box stating “Total Procurement ONLY; do not track diverse spend in (LOCATION)” found on all five of the charts for MIDS

  4) If your company / group only has Total Procurement (true zero/no diverse spend to report) within a designated location, check the box stating “Total Procurement ONLY; no diverse spend to report in (LOCATION)” found on all five of the charts for MIDS
5) If your company / group refuses to report procurement figures in a designated location, check the box stating “Refuse to report data in (LOCATION)” found on all five of the charts for MIDS

   o After you have checked one of the above options, you will be prompted to complete the chart based on the scenario you have chosen.

   **NOTE: If you change your spend scenario after completing the chart, your data will be lost**

   • If your company / group does not procure any goods / services within a designated location, you may check the box stating “Check here if you do not procure any goods / services in (LOCATION)” found on all five of the charts for MIDS

   o Example: Company X is located in Washington and procures absolutely no goods / services from suppliers headquartered in Washington DC. However, Company X met the threshold to report on 2017 MIDS and now has to complete the requested charts.

   ▪ Company X may check the box at the beginning of the Washington DC charts to indicate that it does not procure any goods / services in Washington DC

   o After checking the box, click “Save and Continue” through the remaining tables to save progress and be redirected to the secondary landing page and begin a different chart

   **NOTE: Each chart now includes an additional comment box for companies to share any additional information that is deemed necessary to explain additional potential scenarios or variants with its charts data**

- If your company / group does not procure any goods / services with a designated business enterprise (WBE/MBE/DVBE/LGBTBE/MCBE/VOBE), you may check the box stating “Check here if you do not procure any goods / services with (CERTIFICATION)” found on all designated business enterprise tables on all five of the charts for MIDS
  - Example: Company X procures absolutely no goods / services with WBEs in the United States of America and is requested to report any spend with this designated business enterprise for 2017 MIDS
    - Company X may check the box at the beginning of table 2 on the National charts to indicate that it does not procure any goods / services with WBEs in the United States of America

**TABLE 1: TOTAL PROCUREMENT**

- Table 1 on each chart reports on overall total procurement spend by industry category
  - TOTAL PROCUREMENT SPEND is the total dollar ($) amount of invoices paid out to all suppliers (diverse and non-diverse) for services rendered, reported specifically by industry category
Industry categories are outlined on the “Survey Glossary & Industry Categories” resource document found within the portal and on the California MIDS Resource webpage.

‘A’ TABLES: TOTAL DIVERSE SPEND (TABLES 2A, 3A, 4A, 5A, 6A, & 7A)

- ‘A’ tables on each chart report on total diverse spend by certification in each industry category.
  - TOTAL DIVERSE SPEND is the total dollar ($) amount of invoices paid out to diverse suppliers for services rendered, reported specifically by industry category.
  - This figure includes any payments made to diverse suppliers, including contract payments, purchase orders, etc.
  - Spend is reported by certification and industry category.

Examples:

- Paid invoice of a $500 purchase order with a DVBE for Office Supplies
  - This is a standalone invoice that constitutes procurement from a diverse vendor; any such invoices should be reported in table A for each respective location based on where the supplier is headquartered.
  - This $500 would be reported on table 4A (DVBE) under section (g) Office Supplies.

- Paid invoice of a $1,000 payment as a result of / part of a $5,000 contract with a WBE for Print Services
  - If only $1,000 of the $5,000 contract was paid out to a diverse business in the 2016 calendar year, then that is the only figure to be reported here.
  - This $1,000 would be reported on table 2A (WBE) under section (h) Print Services.

Reference this set of instructions for all ‘A’ tables: 2A, 3A, 4A, 5A, 6A, and 7A.

‘B’ TABLES: TOTAL DOLLARS IN CONTRACTS SIGNED (TABLES 2B, 3B, 4B, 5B, 6B, & 7B)

- ‘B’ tables on each chart report on the total dollars in contracts signed between your company / group and diverse businesses.
  - TOTAL DOLLARS IN CONTRACTS SIGNED is the total dollar ($) amount of all contracts signed between your company / group and a diverse business.
    - Include the total dollar amount of the signed contract, regardless of whether payments were made for work performed / goods purchased.
  - A contract signed for any amount in calendar year 2016, even if no part of it was paid out to the diverse business should be reported here.
  - NOTE: Since reporting is done by calendar year, multi-year contracts should be reported by the average amount for one year only.
    - Hypothetically, if a two-year contract was signed for $100,000 and was in effect from 2015-2017, only $50,000 should be reported for calendar year 2016.
• **Examples:**
  
  o A one-year $5,000 contract with a WBE for Print Services should be reported, even if only $1,000 of it was paid out to the diverse business
    
    ▪ This $5,000 contract must be reported on table 2B (WBE) under section (h) Print Services
  
  o A $10,000 contract with a LGBTBE for Legal Services signed in 2016 should be reported, even if no part of it was paid out to the diverse supplier
    
    ▪ This $10,000 must be reported on table 5B (LGBTBE) under section (m) Legal Services
  
• Reference this set of instructions for all ’B’ tables: 2B, 3B, 4B, 5B, 6B and 7B

### ‘C’ TABLES: TOTAL NUMBER OF UNIQUE PAID SUPPLIERS (TABLES 2C, 3C, 4C, 5C, & 6C)

• ‘C’ tables on each chart report on the **total number of unique paid suppliers** by certification type in each industry category, and reported within the appropriate dollar range

  o TOTAL NUMBER OF UNIQUE PAID SUPPLIERS is the total number (#) of unique paid suppliers to whom your company / group **paid out** an invoice in calendar year 2016 – this can be a contract invoice or a standalone invoice

• **Example:** **Company X** is completing the California chart

  o Company X first determines it paid out invoices to 3 different WBEs in calendar year 2016; these unique WBEs are California diverse suppliers because they have a headquarters address in California

  o Company X then determines that all 3 WBEs are Advertising / Marketing firms and reviews the **total sum paid out** to all 3 WBEs for services rendered:
    
    ▪ WBE #1 – Company X paid out 2 invoices, totaling $40,000 in 2016
    ▪ WBE #2 – Company X paid out 1 invoice, totaling $40,000 in 2016
    ▪ WBE #3 – Company X paid out 3 invoices, totaling $101,000 in 2016

  o Company X will now report these 3 WBEs on table 2C under section (a) Advertising / Marketing:
    
    ▪ WBE #1 and #2 will be reported in the **<$50k** range as they were both paid less than $50,000
    ▪ WBE #3 will be reported in the **$100k-$500k** range as it was paid over $100,000 but less than $500,000

**Disabled Owned Business Enterprise (DOBE)**

‘Disabled owned business enterprise’ means a business enterprise physically located in the United States or its trust territories, that is at least 51 percent owned by person(s) with disabilities, or, in the case of any publicly owned business at least 51 percent of the stock of which is owned by one or more persons with disabilities, and whose management and daily business operations are controlled by one or more of these individuals, who provide proof of United States citizenship or legal resident alien status.

**Disabled Veteran Business Enterprise (DVBE)**

‘Disabled veteran business enterprise’ definitions tend to vary as currently there is no uniform definition available for DVBEs. Each definition for a DVBE has been specified by the government agency that created its own program. The federal government, for example, has two categories and several states have their own state-level definitions and requirements (such as CA & NY, see definitions below). Companies are encouraged to determine what constitutes a DVBE for the state within which they conduct business with a DVBE.

**California**: ‘Disabled veteran business enterprise' has the same meaning as defined in subparagraph (A) of paragraph (7) of subdivision (b) of Section 999 of the Military and Veterans Code, or any successor provision. Disabled veteran business enterprise certification eligibility requirements shall be consistent with those imposed by the Department of General Services, and this section applies only to those disabled veteran business enterprises certified by the Department of General Services.” (Source: [http://www.leginfo.ca.gov/cgi-bin/displaycode?section=mvc&group=00001-01000&file=999-999.13](http://www.leginfo.ca.gov/cgi-bin/displaycode?section=mvc&group=00001-01000&file=999-999.13))

Though printing and publishing are often carried out by the same enterprise (a newspaper, for example), it is less and less the case that these distinct activities are carried out in the same establishment. When publishing and printing are done in the same establishment, the establishment is classified in Sector 51, Information, in the appropriate NAICS industry even if the receipts for printing exceed those for publishing. This subsector includes printing on clothing because the production process for that activity is printing, not clothing manufacturing. For instance, the printing of T-shirts is included in this subsector. In contrast, printing on fabric (or grey goods) is not included.
