I. BACKGROUND

In 2012, the State of California established the Insurance Diversity Initiative. The Initiative focuses on transparency and administers surveys to understand the state of supplier diversity and governing board diversity amongst the state's top insurers, those with written premiums of $100 million or more in California. Between 2012 and 2015, insurers increased their procurement with California diverse businesses by $586.6 million.

The 2016 Multistate Insurance Diversity Survey (MIDS) is a new multistate initiative established by insurance commissioners across six states – California, District of Columbia, Minnesota, New York, Oregon, and Washington – in an effort to focus on diversity issues within the nation's $1.78 trillion insurance industry. Specifically, these efforts are meant to encourage increased procurement from the nation's diverse suppliers and greater diversity on insurer governing boards. MIDS will build on the success of California's Initiative by taking a look at diversity issues across the nation's insurance industry.

The MIDS Portal is the online platform through which your company will access, complete, and submit the survey; all reports will be accessible to public once the administration period has ended. All insurers that meet the threshold to report are required to complete and submit MIDS.

Threshold:

- All insurance companies with written national premiums of $300 million or more and licensed in one of the six partner states; and/or
- All insurance companies with written California premiums of $100 million or more.

The survey questions are focused on two diversity issues: supplier diversity and governing board diversity. The first part of the survey focuses on the demographics of each governing board, as well as the company's outreach efforts to diversify, in order to examine the state of leadership diversity within the insurance industry. The second part of the survey seeks information about each company's supplier diversity program, outreach efforts, and procurement data with diverse suppliers, and is intended to facilitate supplier relationships between insurers and the nation's diverse businesses. Diverse businesses include: Minority Business Enterprises (MBEs), Women Business Enterprises (WBEs), Disabled Veteran Business Enterprises (DVBEs), and LGBT Business Enterprises (LGBTBEs).

As the MIDS lead state, California will be hosting a series of biweekly technical webinars to provide in-depth instructions on completing the survey and address any inquiries you may have about the process. These technical conference calls will take place on Tuesdays at 8:00 AM (PST) and will continue until the survey submission deadline.

More information about each webinar will be sent one week prior to each meeting:

- Series 1: May 10
- Series 2: May 24
- Series 3: June 7
- Series 4: June 21
- Series 5: July 5
- Series 6: July 19
- Series 7: August 2
- Series 8: August 16
- Series 9: August 30

- The unique survey link you’ve received will direct you to the page where you’ll create the login for the primary user account – this user will be the primary user for a company’s account and is able to create secondary users as needed

  - **NOTE:** refrain from creating multiple primary and secondary user accounts per company / group as it may become difficult to keep track of the changes being made to your company / group’s survey(s)

- When entering user information for your account, choose personal information that is easy to remember and note it down for future reference
• Passwords require a minimum of 6 characters and must meet 2 of the following 3 requirements:
  o Alpha & numeric characters (A-Z, 0-9)
  o Uppercase & lowercase characters (A-Z, a-z)
  o Special characters (e.g. !@#$%^&*)

VI. REPORTING

Administrators of the 2016 Multistate Insurance Diversity Survey (MIDS) reserve the right to audit any information submitted in response to the survey. In the event of an audit, if it is found that any inaccurate or missing information was submitted with the express intent of falsifying and misrepresenting reported information of a company / group, the company / group may be subject to penalties.

• Upon logging in, you will always be redirected to the “My Surveys” page, where you'll see if any surveys have been created for your company / group
  o It is likely you will see that there are no existing surveys for your company / group when you initially log in
    — If you see any existing surveys, it may be because there are multiple primary users assigned to different companies within your group that have begun surveys for their assigned companies
NOTE: only edit / access surveys you’ve created or surveys that you are aware someone within your company / group has created and allowed you to access

DO NOT alter surveys you did not create and have no previous approval for, these may be surveys created by a different user for a company that is assigned to the same group as you, but for which you are not the primary contact

Each session is set to expire within 120 minutes (2 hours), any time you move to a different page or save progress the expiration timer will reset your session back to 120 minutes

NOTE: for Parts 1 & 2 of the survey you are unable to save progress continuously, it is advised that you complete Parts 1 & 2 in their entirety before changing sections to ensure progress is saved; the charts can be saved continuously

Remember: if you do not save progress on any part of the survey and your session expires, you may lose any new information that was added and not saved prior to session expiration

To create a new survey, click “Create a new survey” link or “Submit New Survey” button, this will redirect you to a new page where you will select how you’d like to submit a survey

Insurer Supplier Diversity

The charts are a data collection tool built to measure procurement amounts with diverse suppliers nationally and also within each of the partner states. Detailed instructions and examples for each table on these charts are included below. Read these instructions carefully and deliberately to avoid making errors in your entries.

REPORTING BY CHART

• **Procurement information for your company / group will be reported from calendar year 2015.**

• In sum, there are 7 identical charts; each to report procurement information for each of the following:
  
  o **CHART 1:** National – this chart is inclusive of spend within the United States of America
  
  o **CHART 2:** California
  
  o **CHART 3:** Washington, D.C. (listed as ‘District of Columbia’ on the Charts Navigation page)
  
  o **CHART 4:** Minnesota
  
  o **CHART 5:** New York
  
  o **CHART 6:** Oregon
  
  o **CHART 7:** Washington

• **Remember:** each chart requires reporting for a different state, with the exception of the national chart which requires reporting for procurement in the United States. Carefully review all records before entering data to confirm it is for the correct calendar year and state.

• If your company / group **does not** procure any goods / services within a designated location, you may check the box stating “Check here if you do not procure any goods / services in (LOCATION)” found on all seven of the charts that need to be completed for MIDS
  
  o **Example:** Company X is located in Switzerland and procures absolutely no goods / services within the United States of America. However, Company X met the threshold to report on 2016 MIDS and now has to complete the mandatory charts.

  ▪ Company X may check the box at the beginning of the National charts to indicate that it does not procure any goods / services in the United States of America
• After checking the box, click “Save and Continue” through the remaining tables to save progress and be redirected to the secondary landing page and begin a different chart.

   E. Total Diverse Spend ($) by Ethnicity

- If your company / group does not procure any goods / services with a designated business enterprise (WBE/MBE/DVBE/LGBTBE/MCBE), you may check the box stating **“Check here if you do not procure any goods / services with (CERTIFICATION)”** found on all designated business enterprise tables on all seven of the charts that need to be completed for MIDS
  
  - **Example:** Company X procures absolutely no goods / services with WBEs in the United States of America and is required to report any spend with this designated business enterprise for 2016 MIDS
    
    - Company X may check the box at the beginning of table 2 on the National charts to indicate that it does not procure any goods / services with WBEs in the United States of America

### TABLE 1: TOTAL PROCUREMENT

- Table 1 on each chart requires your company / group to report on your overall **total procurement spend** by industry category

  - TOTAL PROCUREMENT SPEND is the total dollar ($) amount of invoices **paid out to all suppliers** (diverse and non-diverse) for services rendered, reported specifically by industry category

### ‘A’ TABLES: TOTAL DIVERSE SPEND (TABLES 2A, 3A, 4A, 5A, & 6A)

- ‘A’ tables on each chart require your company / group to report on your **total diverse spend** by certification in each industry category

  - TOTAL DIVERSE SPEND is the total dollar ($) amount of invoices **paid out** to diverse suppliers for services rendered, reported specifically by industry category

  - This figure includes **any payments** made to diverse suppliers, including contract payments, purchase orders, etc.

  - Spend is reported by certification and industry category
• **Examples:**
  - Paid invoice of a $500 purchase order with a DVBE for Office Supplies
    - This is a standalone invoice that constitutes procurement from a diverse vendor; any such invoices should be reported here
    - This $500 must be reported on table 4A (DVBE) under section (g) Office Supplies
  - Paid invoice of a $1,000 payment made of a $5,000 contract with a WBE for Print Services
    - If only $1,000 of the $5,000 contract was paid out to a diverse business in the 2015 calendar year, then that is the only figure to be reported here
    - This $1,000 must be reported on table 2A (WBE) under section (h) Print Services

• Reference this set of instructions for all ‘A’ tables: 2A, 3A, 4A, 5A, and 6A

---

**'B' TABLES: TOTAL DOLLARS IN CONTRACTS SIGNED (TABLES 2B, 3B, 4B, 5B, & 6B)**

• ‘B’ tables on each chart require your company / group to report on the total dollars in contracts signed between your company / group and diverse businesses
  - TOTAL DOLLARS IN CONTRACTS SIGNED is the total dollar ($) amount of all contracts signed between your company / group and a diverse business
    - Include the total dollar amount of the signed contract, regardless of whether payments were made for work performed / goods purchased
  - A contract signed for any amount in calendar year 2015, even if no part of it was paid out to the diverse business should be reported here
  - **NOTE:** Since reporting is done by calendar year, multi-year contracts should be reported by the average amount for one year only
    - Hypothetically, if a two-year contract was signed for $100,000 and was in effect from 2014-2016, only $50,000 should be reported for calendar year 2015

• **Examples:**
  - A $5,000 contract with a WBE for Print Services should be reported, even if only $1,000 of it was paid out to the diverse business
    - This $5,000 contract must be reported on table 2B (WBE) under section (h) Print Services
  - A $10,000 contract with a LGBTBE for Legal Services signed in 2015 should be reported, even if no part of it was paid out to the diverse supplier
    - This $10,000 must be reported on table 5B (LGBTBE) under section (m) Legal Services

• Reference this set of instructions for all ‘B’ tables: 2B, 3B, 4B, 5B, and 6B
‘C’ TABLES: TOTAL NUMBER OF UNIQUE PAID SUPPLIERS (TABLES 2C, 3C, 4C, 5C, & 6C)

- ‘C’ tables on each chart require your company / group to report on the total number of unique paid suppliers by certification type in each industry category, and reported within the appropriate dollar range.
  - TOTAL NUMBER OF UNIQUE PAID SUPPLIERS is the total number (#) of unique paid suppliers to whom your company / group paid out an invoice in calendar year 2015 – this can be a contract invoice or a standalone invoice.

  - Example: Company X is completing the California chart.
    - Company X first determines it paid out invoices to 3 difference WBEs in calendar year 2015; these unique WBEs are California diverse suppliers because they have a headquarters address in California.
    - Company X then determines that all 3 WBEs are Advertising / Marketing firms and reviews the total sum paid out to all 3 WBEs for services rendered:
      - WBE #1 – Company X paid out 2 invoices, totaling $40,000 in 2015
      - WBE #2 – Company X paid out 1 invoice, totaling $40,000 in 2015
      - WBE #3 – Company X paid out 3 invoices, totaling $101,000 in 2015
    - Company X will now report these 3 WBEs on table 2C under section (a) Advertising / Marketing:
      - WBE #1 and #2 will be reported in the <$50k range as they were both paid less than $50,000
      - WBE #3 will be reported in the $100k-$500k range as it was paid over $100,000 but less than $500,000
