

## 2023 P&C Market Share Report - Addendum (as of 2/25/2025)

Note: Discrepancies regarding the license status of some companies were identified. As a result, they were inadvertently included or excluded in the 2023 P&C Market Share Report released in 2024. This has affected the following lines of business in our original report. However, as indicated, the impact to the affected line's total written premiums and incurred losses are less than 1%. This addendum includes these identified companies and the affected line(s) of business. Table column headings include NAIC#, Company Name, Line Number, Written Premium (WP), Earned Premium (EP), Incurred Losses (IL), Loss Ratio (LR), and Action. Some tables may not use all listed column headings.

Table 1 - 2023 P&C Market Share Report Lines of Business

Line Number	Written Premium	Earned Premium	Incurred Losses	Loss Ratio
1	1,920,777,415	1,726,767,014	554,614,012	32.12%
