

February 13, 2025

Greetings,

My name is Jacy Hyde, and I am the Executive Director of the California Fire Safe Council. I am submitting a request to participate in the review of the Karen Clark & Company model.

CFSC works to support community-led mitigation and resilience efforts, including home hardening and defensible space, as well as community-scale mitigations. I'd like to participate in the model review to understand the criteria used to evaluate risk so that our mitigation efforts can support insurability of the properties we work on, and also to provide expertise regarding effective mitigation for inclusion into the models.

Thank you for your consideration,

Jacy Hyde, PhD ([she/her](#))
