Examination by PSI Services LLC

This Candidate Information Bulletin (CIB) provides information about the examination and licensing process for individuals who wish to apply for a California insurance license, as defined in the California Insurance Code. CDI has contracted with PSI Services LLC (PSI) to conduct the license examination program. PSI provides examinations through a network of computer examination centers in California, including CDI's test center in Los Angeles. PSI also offers online remote proctored examinations. PSI works closely with CDI to ensure the examinations meet state and national California insurance licensing standards.

Licensing Process

CDI is authorized to license individuals who meet the requirements to be an insurance agent, broker, adjuster, and/or bail agent as defined in the California Insurance Code.

In order to be considered for an insurance license, an examinee must:

1. Complete any prelicensing education requirements.
2. Pass a licensing examination to confirm that the examinee has attained at least a minimum level of knowledge regarding the principals, practices, statutes, and regulations relating to the insurance profession and the services the examinee would sell or represent to customers.
3. Submit fingerprints to a live scan vendor.
4. Submit a completed license application to CDI.

Pursuant to California Insurance Code (Cal. Ins. Code) section 1676(a), examinations are valid for one year from the date the examination was passed.

All questions about insurance licensing should be directed to:

Prelicensing Education Requirements

The first step is to complete any required prelicensing education that is approved by CDI. Cal. Ins. Code section 1749 lists the prelicensing education required for new applicants. While it is not required that prelicensing courses be completed prior to taking an examination, it is recommended to complete the course as it provides the study materials for the license examination.

Note: Required prelicensing courses must be completed before the examinee's license can be issued.

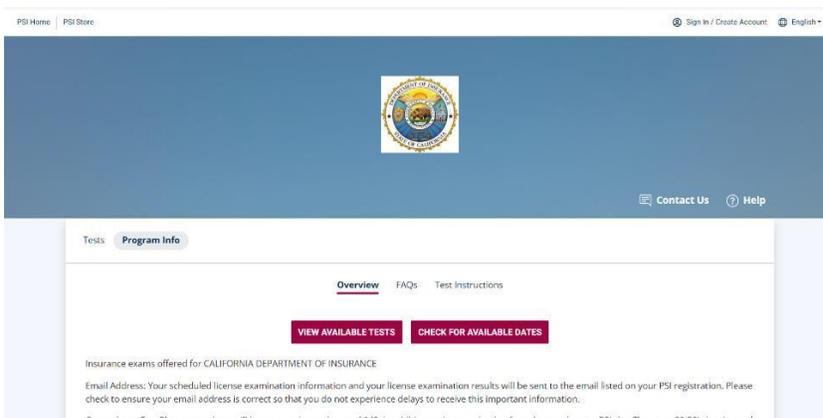

The prelicensing education requirements ensure license examinees meet a level of competency as to products, code of ethics, and the law sufficient to allow the newly licensed agent or broker to function as an insurance professional and for licensed adjusters or bail agents to maintain the highest standard of customer protection.

The license examinee may complete either an online or a classroom prelicensing education course to meet the requirements stated in Cal. Ins. Code section 1749.

Although CDI cannot recommend a specific prelicensing provider, a list of approved prelicensing providers can be found at this link along with other prelicensing requirements: <http://www.insurance.ca.gov/0200-industry/0030-see-pre-lic>

Rescheduling an Examination

In order to retest, you must re-register following the steps for registration and scheduling as outlined earlier. You may also re-register over the internet, telephone, or by mail.

Limit on Retaking a Failed Examination:

Cal. Ins. Code section 1682 states, in part, any insurance license examinee who failed an examination 10 times is barred from taking that license examination for a 12-month period from the date of the last failed examination.

The calculation for determining the number of examinations taken is based on the examination type. For instance, an examinee who is in the process of taking both the life examination and the personal lines examination would not have their examinations combined (e.g., the count for this examination examinee would be five times for the life examination and four times for the personal lines examination in the same 12-month period. In this example, the examinee would not be counted as taking nine examinations towards the ten-examination limit).

However, combination examinations that include one of the license types of a single examination taken in the same 12-month period are considered to be the same examination type when determining the number of examinations taken. For

CANDIDATE INFORMATION BULLETIN FOR CALIFORNIA INSURANCE LICENSE EXAMINEES

instance, an examinee taking the life examination eight times and a combination life and accident/health or sickness examination two times in the same 12-month period will have reached the ten-examination limit for taking any of CDI's life agent examinations, including life-limited to the payment of funeral and burial expenses. For further information, please review CDI's Notice on "[Statutory Limits on Taking Insurance License Examinations.](#)"

Missed Examination Appointment or Late Cancellation

If an examinee is late and/or misses a scheduled examination or provides a late cancellation, the examinee's registration will be invalid. The examinee will **not** be able to take the examination as scheduled and **will** forfeit the examination fee. To ensure there are no issues with rescheduling a license examination, the examinee is to:

- Cancel the scheduled examination at least two business days before the scheduled examination date
- Check-in on time for the scheduled examination
- Provide the proctor with proper identification when the examinee checks into to take the examination

Special Examination Arrangements

All PSI test centers and the CDI Los Angeles test center are equipped to provide access to the license examination in accordance with the Americans with Disabilities Act (ADA) of 1990, and reasonable examination accommodations will be made in meeting an examinee's needs.

Applicants with disabilities or those who would otherwise have difficulty taking the examination should request alternative arrangements by [submitting a test accommodations request](#).

Applicants are required to submit documentation from the medical authority or learning institution rendering a diagnosis. Verification must be uploaded to PSI on the letterhead stationery of the authority or specialist and include all of the following:

- Recommended accommodation/modification and how long the necessity for an accommodation will last
- Name, title, and telephone number of the medical authority or specialist
- Original signature of the medical authority or specialist

CANDIDATE INFORMATION BULLETIN FOR CALIFORNIA INSURANCE LICENSE EXAMINEES

When registering to take a license examination, the self-certification box is located under the Test Format selection. Checking this box notifies PSI that screen reader software will be used during a remote proctored examination.

Test Center Closed for an Emergency

CANDIDATE INFORMATION BULLETIN FOR CALIFORNIA INSURANCE LICENSE EXAMINEES

Taking the Examination at a Test Center

The examination will be administered via computer. Examinees will be using a mouse and computer keyboard.

Identification Screen

Examinees will be directed to a semi-private testing station to take the examination. When Examinees are seated at the testing station, they will be prompted to confirm their name, identification number, and the examination for which they are registered.

Tutorial

Before the examinee starts the examination, an introductory tutorial is provided on the computer screen. The time they spend on this tutorial, up to 15 minutes, DOES NOT count as part of the examination time. Sample questions are included following the tutorial so the examinee may practice answering questions and reviewing the answers.

Test Question Screen

The “function bar” at the top of the sample question provides mouse-click access to the features available while taking the examination.

CANDIDATE INFORMATION BULLETIN FOR CALIFORNIA INSURANCE LICENSE EXAMINEES

Score Reporting

The examinee's "pass" or "fail" score will be displayed on screen at the end of the examination and a score report will be emailed to the examinee. If the examinee fails, the emailed score report will include the diagnostic report indicating how many questions were answered correctly.

Please note the examinee must select to end both the examination portion and the survey portion of the test in order to receive the on-screen results and emailed score report.
