Deputy Commissioner  
Rate Regulation Branch  
California Department of Insurance

**RE: Premium Refund Reports Required by Amended Bulletin 2020-8**

FOR: Company Name: Motors Ins Corp  
NAIC #: 22012

Motors Insurance Corporation is complying with its obligation to file the report required by the Bulletins regarding any and all actions taken and contemplated future actions to refund or provide premium credits in response to Amended Bulletin 2020-8. The Bulletin is ordering all property and casualty insurers with business in California to make appropriate premium adjustments beginning in June through December 2020 because the projected loss exposures of many California insurance policies may have become overstated or misclassified as result of the COVID-19 pandemic.

Motors does not issue private passenger or commercial automobile or workers compensation policies in the state of California. The only coverage we provide in California is for Auto Dealer's Physical Damage coverage for vehicles stored and held for sale on the dealer's lot and the policies are issued to an insured in another state. Based on actuarial review there was no change in exposure and therefore, no premiums were refunded relative to commercial automobile physical damage coverage.

Please do not hesitate to contact me with any questions or further information needed.

Sincerely,  

Ryan C. Anklam  
Assistant Secretary and Director, Insurance Regulatory Controls
